

ACTIVITY: 2007 Ifugao Micro Hydro Resource Ocular Visit

DURATION: 27 September 2007

PROPONENTS: Engr. Ferdinand T. Galera

RECIPIENTS: Barangay in Aguinaldo, Ifugao Province

PROJECT OUTPUT DESCRIPTION

On September 27, 2007, Engr. Ferdinand T. Galera went to the town of Aguinaldo in the Province of Ifugao to conduct an ocular inspection of the proposed Ifugao Micro Hydro power project. Engr. Galera was accompanied by Ms. Thaisa Mae D. Dinamling, ME Alumna of Mapua and one of the students who participated in the ME Tawangan project and currently an assistant engineer in the Renewable Energy Development Agency of the Province of Ifugao.

Engr. Galera inspected the existing Micro Hydro constructions which were abandoned by the DOE because of unknown reasons. Engr. Galera evaluated the condition of the weir, head race, fore bay, and the proposed locations of the penstock and power house.

With the initial ocular visit, the site was proven to be a suitable hydro power resource and development of this hydro project will be a highly recommended extension service.
